The Autodesk Exchange Apps are full AutoCAD applications available as a download from Autodesk Exchange. Autodesk Exchange also contains applications that do not have AutoCAD as their base, such as AutoCAD MEP and AutoCAD XML3D. AutoCAD is the only vector drawing application on the market that has a comprehensive documentation set. AutoCAD is developed with frequent help from current users of the product and after feedback on forums and support sites. In 2018, AutoCAD was ranked as the most widely used AutoCAD version in the U.S. by IT operations professionals, with 57% of their companies using AutoCAD 2018. In addition, AutoCAD was the top-ranked AutoCAD version overall, including Professional and Enterprise, in the 2018 J.D. Power customer satisfaction study of AutoCAD and software. CIM and MEP The Civil 3D module, which is part of the Autodesk Architecture suite, is fully interoperable with Civil 3D. Cim and MEP applications are also compatible with the AutoCAD 2007 and AutoCAD 2009 toolsets. In AutoCAD 2007, MEP and CIM are capable of supporting interoperability between each other. In AutoCAD 2009, these features were replaced by the CIM/MEP APIs. These new features were called Interactive CIM and Interactive MEP. The new Interactive CIM and Interactive MEP features have much greater interoperability between MEP and CIM and make it possible to easily support interoperability in the future.
