You're a busty bunny trapped in a maze... a maze with a boobier than you! You start your journey in the kitchen, and face an array of challenges in various rooms to get out. Get an idea of where you want to go and the path will be revealed. You won't get lost if you follow your instinct. Boobies are everywhere in this maze! Your journey will be long and tough, and if you start missing a room, you'll have to start from the beginning! If you don't make it out, you'll be stuck with no choice but to eat boobies... A simple concept with a lot of boobies! More... Features: Move left, right, up or down with the arrow keys The game doesn't require a lot of keystrokes to play, and the controls are as simple as they come Anyroom can be entered Big boobs in your face Small tits in your face All the boobies in the world! Striped walls and floors Text pop-ups Ambient sounds Controls: WASD = move, F8 or F12 to restart game, P to pause game If this is one of the first games you play on the web, don't be worried if you don't know about pop-ups, ASCII art, or how to save your game. The game controls will be explained, and if you need help with the controls, you can always ask someone in game or on the help page! It's only one level... We've taken much inspiration from Bubble Pop 2. But to make it nice, we've changed the rules. You don't get points for blowing bubbles. The goal of the game is to get out of the maze. We made the game simple but easy to understand. If you don't like it, sorry, you can always press P to return to the menu. If you lose at the end of the level, you're welcome to come back to the game later with a better bud of one. We're still in the process of updating the game, so with that in mind, if you find any bugs, please let us know and give us some feed-back. What's next? You'll see some coming up in the coming months, updates or new games
