Six social race classes (human, elf, demon, orc, fiend, undead)

Story Blended into One.6 The Tarnished Belief. Seven Pathetic Tribes.The darkness of the Elden Ring is spreading. However, among the deep jungle, dense forests, and secluded valleys of the Lands Between, sits an island where hatred and delusion have not been driven out. Beginning with the story that begins with the dawn of the Elden Ring, the new fantasy action RPG begins. The Great Elden Lords will rise from their crystal coffins led by their former leader Stone, and carry out their plan of returning to their crystal beds. In the swamps and jungles, tribes, tribes, and more tribes—dozens of tribes who have all fallen into their own delusions—the people who support the breakup of the Ring await the arrival of the Elden Lords. Then, in a time when war flares, the various districts of the Lands Between will go to war over the control of the crystals.

The popular acclaimed online RPG created as a sequel to Fate/Grand Order. Join your allies in the Lands Between, and strive for the Mark of the Genesis on your forehead.
