The addition of this feature expands and enriches the world of FIFA's game engine. It is a new way to build players, and further embraces cutting-edge technology to reflect a sport that's constantly on the go. New motion-capture suits FIFA 22 introduces the first motion-capture suits in the series. With up to 4,000 sensors, players now wear special suits that have a new fitted design, allowing for significantly more information than was previously possible. Create better players in the new CFM engine FIFA 22 introduces a new CFM engine that more accurately reflects a player's real-life movements. Players now feel more natural and become more defined. In-game camera angles The FIFA World Cup™ cameras used in the broadcast networks are being fully integrated into FIFA in FIFA 22. The TV camera angles are now visible as part of the game environment – providing new dynamic camera angles that give the player a closer view of the action in FIFA. Realistic motion of the players The shooting mechanics of the ball have been improved for players, allowing the player to kick the ball in a more natural way to attack the goal. New animations for the body and head of the players have been added to the game to further increase their realism. The player running animations have been optimised to be more fluid and closer to the movements in real life. This includes improvements to the player movements when sprinting – allowing the player to keep their balance more effectively and run with greater force while sprinting. Pitch surface noise The pitch surface noise, including grass swishing and wind blowing, have been improved to give the player a much more realistic sensation of being on the pitch. Full-scale players and stadiums with contextual awareness Stadiums have been redesigned to better reflect the world of football. Players are now positioned more precisely in stadiums for a more realistic atmosphere and the environments of the stadiums now react dynamically to the flow of the game. Player simulates fall correctly and the player changes his position during runs The FIFA player simulates exactly how a player would fall when tackled to better replicate a real-life situation. Now the player changes position during runs, allowing for greater realism. Tackle now incorporates contextual awareness – when a player is tackled his feet are bent so that he can use his shoulders to

Fifa 22 Features Key:

- FIFA 22 introduces "HyperMotion Technology," which uses motion capture data from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.
- Career Mode - Live out your dreams as both a manager and a player in FIFA 22. Create the newest club in FIFA, design your kits, style your stadium, and choose whether to compete with the elite or rise up from the lower divisions as you manage your club to glory. Or test your skills as a player, with a more immersive Player Career mode that gives you more ways to progress, achieve, and immerse yourself in your Pro's journey through the game.
- Play First-Person Shootout - Dive in for quick knockout battles against your friends like never before with a flexible, always-on motion-controller optional. Push a button to unleash an all-out brawl or a single tactical strike and unleash a barrage of special moves and finishing touches.
- Defending Matters - Play challenges with the improved AI of your teammates, see how defence and players differ in high-intensity matches, or see how your underdog squad stacks up against their more experienced rival sides with changing Champions League rules.
- Face your arch enemy with the most iconic names in football
- VR Mode - Connect and compete with up to 8 players with the same free-roaming role with full cross-play between PS4 and Xbox One consoles. Shoot and dribble or pass and shoot in whatever position you want: no barriers to you performing your style of play. Improve your position and aim through endless WRC mode challenges, then knock out your friends in 1-on-1 tournaments in 4 action-packed game modes. Bring them all together in action-packed sessions of FIFA Ultimate Ticker.

What's new:

- EA SPORTS Football In Action (The One on One animation system) - Improvement to the game's animation system based on player individuality, from the way players move, accelerate and decelerate. However, the player animations no longer cause health to drain in actions like running off the ball.
- Create your own path to game glory by seamlessly switching between player and manager mode during the ball's flight. This mode allows you to transition between your Professional and Amateur career seamlessly in real time as you manage your club as a player.
- Deeper analysis of match data has allowed the game's motion capture technology to draw conclusions that bring the game to life in greater detail, and enables more opportunities and action determination in your games. For example, get more control over where teammates will position themselves in crowded areas in congested spaces.
- Improved player passes feel authentic, make more use of the game's sliders, and have a true feel for how each ball based on modern physics affects its delivery.
- Surface rewards you with more high-speed rewards, beautiful run animations as you shoot on goal with first-to-feature Artificial Intelligence skill additions.
- 3D visualization and improved stadium graphics, as seen on the pitches of the world's best European and South American leagues.
- Improved team play - A major factor that pushes players to excel in today's game is the ability to pass and work together as teams; FIFA 22 offers players a new take on team play and improved communication during both defending and attacking.

Key game modes.

- OFFENSE Use the 3D touchpad to strike or chip your opponents to set up the shot. Control when your team attacks by holding down the shot button to set the perfect moment of attack. Use the free hit for a critical shot.
- DEFENSE Protect your backline with the defensive button and control your full back and goalkeeper.
- 3 on 3 Quick Reaction Soccer Teams - Individually coached Team Training and Online Play Features
