## Gp340 Programming Software 28

It looks like you have Javascript disabled, or your browser (Safari, Google Chrome, Apple Safari) has a bug. Please note that your browser may or may not display all of the features of this site. Q: How to set the title of the chart generated through ajax? I've a an ajax call that when successfull runs a code that generate achart for each record in a database. The achart is generated but it doesn't get the title that I've set in my asp.net c# code. Here is the code i've used for the generation of the chart through ajax :

```
$.ajax({ type: "GET", url: "Forms/Data/Hists.aspx/GetReport", data: '{"date":"' + data.curentDate + "','id": "' + data.id + "'}', dataType: "json", contentType: "application/json; charset=utf-8", success: function (data) { if (data.d.length > 0) { var chart = new Chart(document.getElementById("placeholder").getContext("2d")); var myChart = new Chart(document.getElementById("placeholder").getContext("2d"), { type: 'line', data: { labels: data.l, datasets: [{ label: "my first dataset", data: data.d,
```

mounting assembly for securing a camshaft with respect to a crankshaft of an engine in a vehicle. In a vehicle having an internal combustion engine and transmission, it is necessary to couple the crankshaft of the engine to the camshaft, which carries cams that actuate the valves of the engine. It is known to provide a mounting assembly that includes an extension extending outwardly from an outward end of the camshaft to extend over the engine
