Torrent.System Shock 2 System Shock 2
(, Tachyon Concourse II) is a 1999
American science fiction horror film by
the British director Dean Devlin and the
first sequel of the 1995 original System
Shock. The film was produced by Scott
Rudin, Devlin, and Peter Lauritson, and
distributed by New Line Cinema. The film
was released on March 21, 1999. The film
premiered at the Sundance Film Festival
on January 18, 1999. Plot The film begins
with a near-future vision of the Tachyon
Cloud, a group of rogue technomorhoids
that kill any sentient being they deem
"weak" or "sinister". After their city is
destroyed and nearly all of their residents
die, the remaining survivors continue to
explore the ruins, where they discover a

strange beacon which has the power to spread peace to every individual on the planet. In 2030, five years after being released from prison, a young woman named Rachel has been working as an assassin for the CCA, a fictional branch of the Central Intelligence Agency. She becomes involved with two CCA operatives, Daniel Lasalle and Hester Chang, as they hunt down fugitives in the mysterious organization known as the Undertowners (an eco-terrorist organization). After witnessing a gang attack on a police officer, Rachel resigns from the CCA and enters the abandoned Baker Street Tube Station, where she encounters the newly re-activated computer network known as the Tachyon Network and befriends its former founder,

Logan. The organization's network is located in the ruins of a machine called the Tachyon Concourse, located in an old and abandoned tube station. The Concourse contains several humanoid robots and a machine called the Terminal. Dr. Elly van Hauwermeiren, a scientist working for the CCA, is also present. Logan reveals that he is the creator of the Tachyon Network. When he discovers Rachel, he offers her a job with the network, which she turns down.
